A SUMMER CAMP WITH A NEW YORK VIBE

June, 2012

Researching the summer camp options for your children? If you have children aged between two and five years old whom you want to keep busy during the summer holidays, then have a look at Appleseeds in Dubai Gold and Diamond Park.

This is a brand new facility, freshly arrived from New York City, which will be running classes throughout the summer from June 24th-August 30th with two sessions daily (9:30 am-12:30pm and 2:30pm-5:30pm).

The camp program is replicated from the New York City branch, where it has already won an award for Best Day Camp. Appleseeds focuses on educational activity through play that is aimed at making the children more independent and teaching them to work in groups. Classes will include cooking, gym, art, science and music.

By becoming a member, you can enjoy plenty of different perks, including discounts on parties, free events and priority in class enrolment.

There is also a fully equipped, 2,000 sq ft indoor play area that can be used by members.

Finally, the cherry on the cake that won us over is a coffee shop with wi-fi facilities for parents' convenience.
